to customerservice

Warm greetings Mr Philips Michael, Account Director Customer Service,

I have been forwarded your contact to expedite the settlement of an estate for the widow Merian Franck. A WILF, am I right?

She has kindly asked that I, Phil Madick, former CBJO of Madick Industries, disperse her monies to charitable organisations and myself, the latter being the priority, of course.

As you are the Account Director Customer Service you can best instruct me how to go about having this matter progressed before Mrs Merian Franck slurps on the big one in the sky?

Please let me know what you require and I shall action it asap. fyi, yolo.

Swollen appendage,

Phil Madick

Attn; Phil Madick,

This is to acknowledge the receipt of your mail and to inform you that Mrs. Merian Franck who is the beneficiary of the sum of Fifteen Million United States dollars only [US\$15.000.000.00] deposited by her late husband Dr. Kevin Franck has already introduced you to this bank as the new beneficiary of the fund.

It is the ethics of this bank to establish communication with you before we commence the process of transferring the fund into any of your bank accounts. This is based on the fact that this fund was deposited in an escrow account with our bank by her late husband and before this fund can be transferred to you, there are procedures to follow.

They will be a change of beneficiary of the fund to your name as the new beneficiary. Hence we will mandate our bank Attorney to file a notification of fund ownership in your name at the Ministry of Justice here and once that is done and the certificate to this effect, issued and obtained. We will go ahead to transfer the fund into your bank account without delay.

You are to acknowledge the receipt of this mail authorizing us to go ahead with the process.

Anticipating your prompt response.

Mr. Philips Michael.

Greetings Michael Phelps,

I have a proposition that might expedite matters. If you can finance the \$750 in fees through yourself I will then authorise you to deduct USD\$1,500 from the \$15,000,000 to then keep for yourself before advancing to me. So you can triple your \$750 investment.

That would mean I would then be furnished with:

\$15,000,000.00

Less \$750 fees to you that you advanced

Less \$1,500 for your benefit for advancing the \$750 fee initially

Leaving \$149,977,500.00

Let me know what becomes of the broken hearted and we can advance this further.

Balsac,

Phil Madick

Attn; Phil Madick,

This is to acknowledge the receipt of your mail.

Please be informed that we are an institution and not an individual. We have laid down rules and regulations and it cannot be altered for the sake of an individual or group of individual. Your request is not considered as it goes against the ethics of this bank. However, your benefactor Mrs. Merian Franck send the sum of \$300 through a nurse this morning. Hence you are left with the sum of \$450. Once this balance is received. Be rest assured that our Attorney will obtain this document in your favour today and by tomorrow Wednesday 22nd July 2015, we will effect the transfer of this fund into your bank account.

You are advised to send the fee through Western Union money Transfer or money gram as it is the fastest means of transferring and receiving small amount of fund worldwide with the name of our Attorney.

Receiver name; Owoh Egoji.

City; Abidjan

Country; Cote D Ivoire.

We will be expecting your prompt response.

Thank you.

Hankerchief Michael Phelps,

OK, sorry, I misunderstood the vibe of your previous e-mails. I understand. So you yourself can't front the monies because you're a bank. Understood.

I have a solution then I guess. As you're a bank there I will apply for a credit card to cover the \$450 remaining after Mrs Merkin Francks so generously paid the \$300 already. I expect the knowledge that the \$1,500,000,000.00 is due me should be enough to cover any credit card but a modest card with a \$500 limit would suffice.

In anticipation that you may not be able to loan against monies not yet received I have some collateral I can offer in the Short term. I have a surplus to requirement Segway from our warehouse at Madick Industries that are valued at over US\$5,000.00, I have that particular one picture attached I am prepared to use as collateral.

Let me know your thoughts and I'll have the title to the Segway transferred to your organisation.

Attn; Phil Madick,

This is to acknowledge the receipt of your mail.

Please be informed that we can only accept collateral that we can see here. It is unfortunate that you can borrow this little amount from your country to execute your project. I will advise that you stop all this suggestion and follow our candid advise. Otherwise you are wasting your time and please do not hold us responsible should anything happens to your fund because of this delay. A word is enough for the wise

Copacabana Michael Phelps,

I apologise, I was unaware how lending worked in your country. Very naïve of me, Should I research how I can get lending in Cote D'Ivoire perhaps? I could possibly write to our embassy there and see if someone there could act as a guarantee for my Madick? They might be able to advise? Do you think this is a good option?

Or should I ask of my friends to assist? Which you think would give the most satisfaction?

Attn; Phil Madick,

This is to remind you of the need to expedite action in transferring the balance of \$450. Be informed that we have concluded all the arrangement regarding the transfer of your fund into any of your bank account and only waiting for this balance. You are advised to do the needful without further delay.

We will be expecting your prompt response.

Thank you.

Michael Phelps' Dong,

I am sorry for the lateness in my reply. I had some unexpected expenses crop up as a result of the aftermath of my visit to the 89th Annual Chocolate Starfish Symposium in Belgium this weekend past. Apparently the definition of harassment has become a whole lot broader, unbeknownst to me. As a result I had to shell out some hush money and had to use \$200 or the \$450 I had acquired for the payment.

So I have only \$250. I can try to raise the extra \$200 this week, but I have also been offered a different inheritance and they're suggesting the fees are only \$250 for that inheritance. Maybe it's a different bank or something? Maybe less paperwork. I'm not sure what to do. Do I try again to raise the other \$200 to take up Mr Merkin Franky on the offer of \$17,000,000,000.00 or use the \$250 I have now to take up the offer from Russian oligarch Mr. Iva Nokabolokov who has \$21,000,000,000.00 he needs to clear from his widow's estate, the late Mrs. Irene Toofarleft

Sorry for the delay, and for my indecision. If I can't raise the \$200 I will have to go with Mr Nokabolokov's offer which only would require the \$250 I already have.

I'll let you know my decision forthwith.

Schlong Michael Phelps,

I don't know what is going on here, I feel I'm being misled, conned or masturbated, or all three. Please can you confirm something and allay my swelling glands?

I have searched everywhere in my village and there are no Eastern Union facilities, no one knows of what I speak.

How am I to send you the \$450 for the discharge fees balance for Mrs Merkin Francks \$48,000,000,000,000.00 if I can't find an Eastern Union place to make the deposit?

Please help me, I don't understand why I can't find this and why my nutsauce tastes of fennel.

Expectantly awaiting your reply,

Phil Madick
